Flower Preservation

Price List for Flower Preservation

Customers Outside Israel

If you have the possibility, please keep in mind that sending fresh, uns dried flowers internationally to Israel can be quite difficult, especially if they need to arrive quickly and in good condition.

You therefore have a couple of options:

- **You can dry the flowers yourself in advance** and then send them to me once they are completely dried. I'll be very happy to provide you with a simple guide explaining how to dry them and how to carefully pack your dried flowers before sending them to me in Israel.
- Another option is to have your wedding bouquet recreated here in Israel after the wedding, without having to ship your original bouquet from abroad.

You can contact **Alexandre at Masaryk Wine & Flower in Tel Aviv** directly to share photos of your wedding bouquet, discuss which flowers you'd like to include and confirm availability and pricing. You'll arrange the bouquet and its delivery to my studio in Tel Aviv directly with him.

Please coordinate the timing with me beforehand so I'm ready to receive and preserve your flowers.

Materials & Creations

Materials

- Professionally Preserved Natural Flowers: Handcrafted to preserve their natural beauty. (Please note: Flower colors may shift during the preservation process).
- Premium Quality Resin: I use only the highest-quality, food-safe resin for a crystal-clear, durable finish.
- Expert Craftsmanship: Each piece is completely handmade using professional preservation techniques.

Important Notes

- Uniquely Handcrafted: Every single piece is uniquely handmade, meaning no two items are exactly alike.
- Natural Color Transitions: Because I work with real, natural flowers, color changes can occur during the drying process:
 - Red → Transforms into a deep burgundy
 - Orange → Becomes a warm, golden yellow
 - White → Turns into an off-white or slightly translucent tone
- Leftovers: Please note that I provide leftover glass shards back to you, but I do not return leftover flowers. Any unused flowers from your bouquet will be respectfully discarded after production.

Booking Your Flower Delivery Date: You must coordinate with me in advance to confirm the date I will receive your fresh flowers, to ensure availability. I can only accept a limited number of bouquets for drying each month, so please contact me first to check availability. Please note that your date will only be officially reserved once your order has been placed.

Bouquet & Glass Capacity Guidance

- Wedding Glass: Usually, one broken glass provides enough shards to create 2 different artworks plus additional jewelry pieces.
- Bouquet: With a single wedding bouquet, you can create several artworks and jewelry pieces—the exact number simply depends on the initial size of your bouquet.
- Color & Artwork Variations

Please note that the colors of the glass shards and the final artwork(s) may vary slightly from the photos, but they will remain very similar.

Each creation is entirely unique because it is handmade and tailored specifically to your personal choices. Rest assured that I will put my utmost effort, heart, and care into making your keepsake as spectacular as possible!

Care Instructions

Smashing glass:

- Stepping on glass can cause foot or ankle injuries, particularly if broken shards penetrate the shoe. To reduce the risk, consider covering the glass with a towel or providing additional protection. The groom should use the heel to step on it.
- Do not use this glass with any liquid or any other material. This glass is for the Jewish wedding ceremony only, not for any other purpose.
- Handwash only, avoiding harsh chemical cleaners. Handle with care. Avoid using metallic sponges on glass.

For all Resin & Glass Items:

- Dusting: Dust gently with a soft, dry cloth.
- Light Cleaning: If needed, wipe with a slightly damp cloth.
- Cleaners: Do not use harsh or abrasive cleaners.
- Sunlight: Avoid direct or indirect sunlight (to prevent yellowing or fading).
- Heat: Keep away from heat sources, fire, and extreme temperatures.
- Handling: Handle with care.
- Display: Display on a stable, flat surface.
- Trays — do not cut on them, as knives will scratch the surface.

For Items Using Candles (Candlesticks & Menorahs):

- Dusting: Dust gently with a soft, dry cloth.
- Light Cleaning: If needed, wipe with a slightly damp cloth.
- Cleaners: Do not use harsh or abrasive cleaners.
- Sunlight: Avoid direct or indirect sunlight.
- Heat: Keep away from heat sources, fire, and extreme temperatures.
- Handling: Handle with care.
- Display: Display on a stable, flat surface.
- Wax Warning: For candlesticks: ensure candle wax does not directly contact the resin.

For Kiddush Cups:

- This delicate Kiddush Cup is handcrafted with precision and care. To maintain this delicate art piece in its best condition for as long as possible, please adhere to the following guidelines:
- Washing: The kiddush cup cannot be washed in the dishwasher; it must be cleaned exclusively by hand.
- Exterior Cleaning: Special care is required when cleaning the exterior, where the glass shards and resin are located.
- Cleaners: Do not use harsh cleaners on your art piece.
- Light Cleaning: Wipe gently with a damp cloth if necessary.
- Heat & Fire: Do not put the art piece in contact with heat sources or direct contact with fire.
- Sunlight: Do not expose the art piece to direct or indirect sunlight.
- Handling: When moving or using it, handle it with gentle hands to prevent any damage or scratches.

For Jewelry:

Cleaning: To clean, wipe gently with a soft cloth.

Moisture & Chemicals: Avoid exposure to water, perfume, lotions, and chemicals.

Storage: Store in a cool, dry place.
